HEBRON HISTORIC SURVEY

This survey was undertaken at the request of the State Division for Historic Preservation and the Washington County Planning Department as a way for local people to assess the important historic resources in their towns, that they may take steps to protect the special character that their communities possess. Hundreds of hours of work are represented in this survey by Hebron volunteers. Unfortunately, it was impossible to interview every owner in the survey of the 355 builings in Hebron over 50 years old.

This survey is not complete and will never be. We have lost a great deal of information concerning the history of Hebron. There has not been a comprehensive history of Washington County since 1878. 100 years of history has not been recorded. This survey has helped us piece some of the Hebron puzzle back together. In fact, the Hebron Preservation Society is a result of the historic survey. We organized the group when we realized how little we knew about our town and felt that we needed a historical society to coordinate projects that would stimulate better understanding and pride in the history of Hebron. Even though the survey could never be considered complete, the Preservation Society will continue to add information to their copy of the survey as they uncover it. The Town Clerk's copy is to be deposited in the town archives as a matter of town record and as an aid to the Hebron Planning Board. The Preservation Society copies are to be accessible to the public by appointment. The negatives for all photos taken during the survey are on file in the county archives with the Department of Information & Historic Preservation. Copies of this survey will be on file with the Hebron Town Clerk, the Hebron Preservation Society, the N.Y. State Division for Historic Preservation and the Washington County Department of Information & Historic Preservation. Numbers on the map correspond to numbers on the upper right hand corner of the survey forms. The letter "A" before a number stands for an archaeological site. The index to structures is included in Volume I and is listed alphabetically by owner between the years of 1974 & 1978. Some renters may have been mistaken for owners.

Still remaining in Hebron are:

9 district school houses out of 16
1 cheese factory out of 5
3 mills
1 house and 1 church with hand stenciled walls
1 log cabin
4 blacksmith shops
1 of 4 Advent Christ Churches in the count y built as a direct result of William Miller's revival meetings held here
1 metal lattice truss bridge
7 churches out of 10

ACKNOWLEDGMENTS

We owe a great deal to the following present or former Hebron residents for their invaluable information concerning the history of Hebron, without their help many facts would be lost.

SUGGESTIONS FOR THE FUTURE

It is the historic character of our hamlets and countryside that makes Hebron such an attractive place in which to live. We therefore urge that the preservation of historic structures and their surroundings be taken into account in any future plans for the Town of Hebron.

Should the Town of Hebron decide in the future to establish a community hall, it is hoped that the Town Board would adapt an existing structure for that use instead of building a new building.

The survey committee will continue preservation efforts through the establishment of local historic districts to be listed on the National Register of Historic Places. The National Register is a federal list of the nation's most significant historic resources worthy of preservation. Advantages of being listed on the National Register are as follows:

1. Eligibility for 50% matching preservation grants (priority goes to buildings where the most people will benefit from the grant, such as buildings owned by government agencies or non-profit groups)

2. Limited protection from the adverse effects of federally financed projects

3. Increased local interest and pride

4. Tax incentives for substantially rehabilitated commercial historic buildings

Restrictions:

1. Cannot write off the demolition cost of tearing down a historic building and cannot take rapid depreciation on the cost of new construction on the site of a former historic building

Proposed historic districts in the Town of Hebron:

West Hebron
Chamberlin's Mill
East Hebron
Belcher
North Hebron

We have many scenic roads in Hebron and as yet no plan exists to establish, with the permission of adjoining property owners, certain roads as "scenic" and maintain them as dirt roads, leaving the stone walls and tree rows. Some towns pride themselves in blacktopping every road in their town. We hope this will not happen in Hebron; our old roads are one of our scenic assets.
